RARE 2026
3rd Edition

CHAIR

Professor Cecilia ARSENE
"Alexandru Ioan Cuza" University of Iasi, RECENTAIR Coordinator, Chemistry

CO-CHAIRS

Professor Romeo Iulian OLARIU
"Alexandru Ioan Cuza" University of Iasi, Chemistry
Professor Ionel MANGALAGIU
"Alexandru Ioan Cuza" University of Iasi, Chemistry
Professor Silviu Octavian GURLUI
"Alexandru Ioan Cuza" University of Iasi, Physics
Professor Catalin GALES
"Alexandru Ioan Cuza" University of Iasi, Mathematics
Professor Lilian NIACSU
"Alexandru Ioan Cuza" University of Iasi, Geography
Assoc. Prof. Cristian Dan LESENCIUC
"Alexandru Ioan Cuza" University of Iasi, Geography
Lecturer Ionut VASILINIUC
"Alexandru Ioan Cuza" University of Iasi, Geography
R3 Established Researcher Emanuel BALTAG
"Alexandru Ioan Cuza" University of Iasi, Biology

SCIENTIFIC COMMITTEE

Professor Iuliana Gabriela BREABAN
"Alexandru Ioan Cuza" University of Iasi, Geography
Professor Mihaela Elena BREABAN
"Alexandru Ioan Cuza" University of Iasi, Computer Science
Professor Lucian FUSU
"Alexandru Ioan Cuza" University of Iasi, Biology
R4 Leading Researcher Sorin TASCU
"Alexandru Ioan Cuza" University of Iasi, RAMTECH, Physics
R3 Established Researcher Iustinian BEJAN
"Alexandru Ioan Cuza" University of Iasi, CERNESIM, Chemistry
Assist. Prof. Cosmin IRIMIA
"Alexandru Ioan Cuza" University of Iasi, Computer Science
Assist. Prof. Laurentiu Valentin SOROAGA
"Alexandru Ioan Cuza" University of Iasi, Chemistry
Assist. Prof. Tudor VARTOLOMEI
"Alexandru Ioan Cuza" University of Iasi, Mathematics

PHANOS

The "Alexandru Ioan Cuza" University of Iasi and the Research Center with Integrated Techniques for the Investigation of Atmospheric Aerosols in Romania (RECENT AIR) organize

Ready for EUROPE Conference

3rd Edition

Harmonies of Innovation: Science, Art, and Young Entrepreneurship for Europe's Future

RARE 2026

Conference venue

Iasi, 10 - 11 December 2026
"Ion Simionescu" Conference Hall, "Canta" House
9 Carol I, 700506 Iasi, Romania

RARE 2026
3rd Edition

ORGANIZING COMMITTEE

R2 Recognized Researcher Cornelia NITA
"Alexandru Ioan Cuza" University of Iasi, Chemistry
R2 Recognized Researcher Claudiu ROMAN
"Alexandru Ioan Cuza" University of Iasi, Chemistry
R2 Recognized Researcher Cristina IANCU
"Alexandru Ioan Cuza" University of Iasi, Chemistry
R2 Recognized Researcher Alexandru COCEAN
"Alexandru Ioan Cuza" University of Iasi, Physics
R2 Recognized Researcher Silvia GAROFALIDE
"Alexandru Ioan Cuza" University of Iasi, Physics
R2 Recognized Researcher Vasile PELIN
"Alexandru Ioan Cuza" University of Iasi, Physics
R2 Recognized Researcher Razvan Vasile ABABEI
"Alexandru Ioan Cuza" University of Iasi, Physics
R2 Recognized Researcher Ionut-Costel CODRU
"Alexandru Ioan Cuza" University of Iasi, Geography
R2 Recognized Researcher Georgiana CRETU - VACULISTEANU
"Alexandru Ioan Cuza" University of Iasi, Geography
R2 Recognized Researcher Andrei URZICA
"Alexandru Ioan Cuza" University of Iasi, Geography
R2 Recognized Researcher Vitalie AJDER
"Alexandru Ioan Cuza" University of Iasi, Biology
R2 Recognized Researcher Florina CABA
"Alexandru Ioan Cuza" University of Iasi, Biology

SECRETARYSHIP

R1 First Stage Researcher Robert Iulian BERARI
"Alexandru Ioan Cuza" University of Iasi, Chemistry
R1 First Stage Researcher Camelia MARANDIS
"Alexandru Ioan Cuza" University of Iasi, Chemistry
R1 First Stage Researcher Maria KOZHEMYAKO
"Alexandru Ioan Cuza" University of Iasi, Chemistry
R1 First Stage Researcher Diana IRICIUC
"Alexandru Ioan Cuza" University of Iasi, Chemistry
R1 First Stage Researcher Roxana CIORTEANU
"Alexandru Ioan Cuza" University of Iasi, Chemistry
R1 First Stage Researcher Alexandru PINTILIOAIE
"Alexandru Ioan Cuza" University of Iasi, Biology
R1 First Stage Researcher Lucian HANCEANU
"Alexandru Ioan Cuza" University of Iasi, Biology

GENERAL INFORMATION

From expanding research infrastructure in 2024 to advancing STEM and the European Education Area (EEA) in 2025, RARE reaches full maturity in 2026 by expanding into a comprehensive STEAM-E framework (Science, Technology, Engineering, Art, Mathematics & Entrepreneurship).

In 2026, RARE evolves from STEM to STEAM-E to demonstrate how scientific breakthroughs in the natural sciences, chemistry, physics, biology, environmental studies, mathematics and informatics, transform into real-world European solutions when paired with entrepreneurial vision and artistic expression.

Natural sciences deal continuously with invisible dynamics, molecules, aerosol particles, and climate gradients, each possessing a distinct visual identity. Speaking the language and seeing through the eyes of an artist helps bridge complex science directly to the human heart. While the heart of a scientist in hard sciences may beat like a drum, scientific discoveries fulfill their true mission only when they resonate in harmony with human emotion and societal needs.

By showcasing innovative spin-offs and deep-tech startups, early-career researchers and young founders act as a vital catalyst transferring natural science innovations directly to society, aligning seamlessly with the strategic goals of the European Institute of Innovation and Technology (EIT) and the European Education Area (EEA).

Conference program

Invited conferences
Short oral communications and Posters
Pitches on green tech, circular economy, and deep-tech startups
Graphic art masterclass & live exhibition
Vocal musical performances by young European singers
Special workshops

All contributors are requested to register on the Registration Website and upload the abstracts (one-page A4 format each) by **23 November 2026,** at the web page address: https://rare2026.zite.so/

Participation fee

The third edition of the RARE 2026 Conference has no fees.

Contacts

All information on abstract submission and registration is available on the Conference website:
https://recent-air.uaic.ro/Ready_for_Europe_Conference_2026.php

Direct and specific questions to the address: carsene@uaic.ro
